

LOW CHILL NECTARINES

Cultivar	Estimated Chill Hours Required	Fruit Season	Flesh Color	Comments
Armking	150-250	Early	Yellow	Semi-freestone. Skin has good red coloration.
Arctic Glow	300-400	Mid	White	Excellent, sprightly flavor with good sugar to acid balance.
Arctic Star	250-350	Mid	White	Semi-freestone. Super sweet variety with outstanding flavor.
Desert Dawn	100 or less	Early	Yellow	Semi-freestone. Fruit requires heavy thinning.
Desert Delight	100 or less	Early	Yellow	Freestone. Fruit is larger and better quality than Desert Dawn. One of the best new low chill varieties.
Double Delight	150-300	Mid	White	Rated as one of the best flavored yellow nectarines. Double pink flowers are very showy. Freestone
Goldmine	150-300	Late	White	Freestone
Gulf Pride	100 or less	Early-Mid	Yellow	Freestone. Large fruit, one of the best low chill nectarines.
Panamint	100 or less	Mid	Yellow	Freestone. A very dependable variety.
Pioneer	200-400	Mid	Yellow	Freestone. Large pink flowers are very showy.
Snow Queen	150-300	Early-Mid	White	One of the best low chill white fleshed nectarines.
Southern Belle	250-350	Mid-Late	Yellow	Freestone. A genetic miniature.
Sun Red	250-400	Early	Yellow	Semi-freestone
